

DANCESTEP® PLUS

MARLEY FLOORING

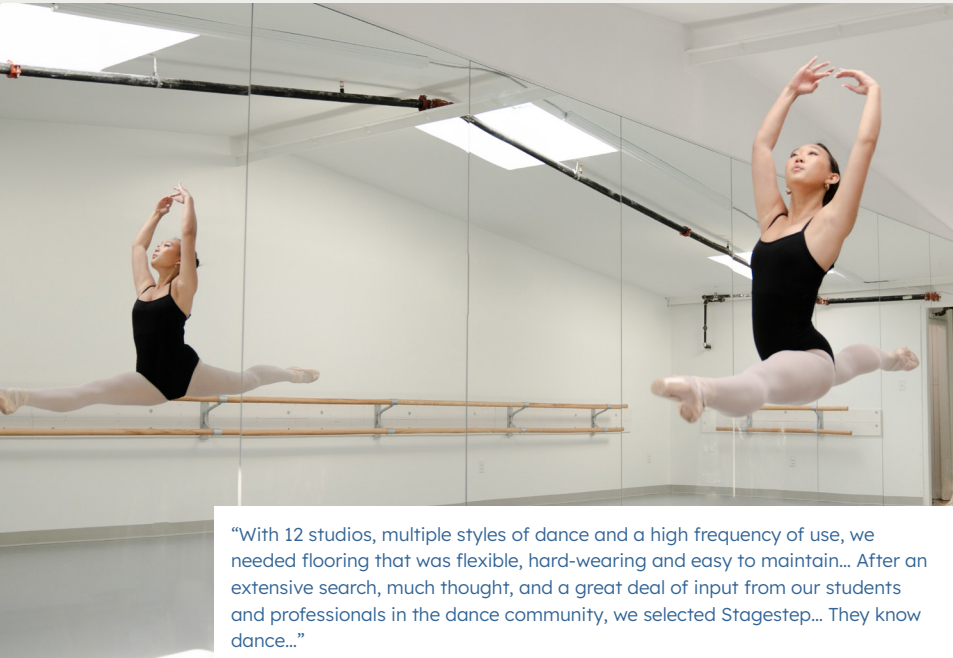

COLORS: BLACK | GREY

Dancestep® Plus is a foam-backed flooring intended to be placed directly on top of concrete as well as textured or embossed Marley flooring, designed to be non-slip and an ideal surface for contemporary, jazz and all dance forms requiring superior non-slip.

Dancestep Plus does not require a floating wood subfloor.

"With 12 studios, multiple styles of dance and a high frequency of use, we needed flooring that was flexible, hard-wearing and easy to maintain... After an extensive search, much thought, and a great deal of input from our students and professionals in the dance community, we selected Stagestep... They know dance..."

-Susan B. Glazer | Former Director of the School of Dance,
University of the Arts
