---

Super Bravo® is a reversible, portable Marley flooring, perfect for stage, studio and touring. A fiberglass lining improves stability and offers better lie-flat. Superior work surface for jazz, modern, ballet and all movement including light tap use.

This flexible multi-layer floor is ideally suited for studio, touring and stage. Resists wear and tear. Super Bravo should be used in conjunction with a floating wood subfloor.

“Moving fast, you always want to take the right steps. One of the best we’ve taken is choosing Stagestep. Miami Contemporary Dance Company moves with excitement and passion. Long balances, high athletic jumps and rapid movements require reliability and precision. Whether performing at home or rehearsing to take the show abroad, Stagestep flooring and equipment is always what we can count on. At MCDC, even when we’re off Stage, we’re always on Stagestep.”
