

# SUPER TIMESTEP®

## MARLEY FLOORING

---

**COLORS:** BLACK | GREY

---

Super Timestep® is a textured or embossed Marley flooring, designed to be non-slip and an ideal surface for ballet pointe work as well as contemporary, jazz and all dance forms requiring superior non-slip.

A fiberglass lining improves stability and offers better lie-flat. Energy transfer layer allows for tap and percussive dance. Flexible for easy roll-out and roll-up like a standard Marley.

"I have been in the dance competition production industry for 16+ years. Our company does 300+ shows in 6 months all across the world. The Super Timestep flooring by Stagestep is the only floor I trust to roll out flat and perfect every time. Even when traveling in our equipment trucks in freezing temperatures during the winter. I believe it to be the best flooring on the market by my own personal experience. My wife and I also trust it in our own Dance Studio"

**-Josh Hodge** | Star Dance Alliance Equipment Manager
